Of course, I would like to recognize and thank the staff in the Office of Student Financial Aid and Scholarships. The success of my office would not be possible without their hard work and dedication. The mantra of the Student Affairs Division and the Enrollment Management area is that everything that we do is all about our students. So, for me to receive this award gives me an indication that my office is making some positive strides in the services we provide to our students. I am indeed thankful to be recognized in this manner."**
